Project Title__________________________________________________________

COMPLETING THE ABSTRACT:
Abstracts must be at least 25 words and no more than 250 words. The abstract must be typed single spaced in 12 point Times New Roman font. The abstract should include the following:
   a) purpose of the experiment
   b) procedure
   c) data
   d) conclusions
It may also include any possible research applications. An abstract must not include the following:
   a) acknowledgments (including naming the research institution and/or mentor with which you were working), or self-promotions and external endorsements
   b) work or procedures done by the mentor

TIPS ON WRITING A PROJECT ABSTRACT

A project abstract is a brief paragraph or two (limited to 250 words or 1,800 characters) highlighting and/or summarizing the major points or most important ideas about your project. An abstract allows judges to quickly determine the nature and scope of a project.

- Emphasize these aspects: purpose (hypothesis), methods (procedures used), data summary or analysis, and conclusions.
- Focus only on the current year’s research.
- Omit details and discussions.
- Use the past tense when describing what was done. However, where appropriate use active verbs rather than passive verbs.
- Use short sentences, but vary sentence structure.
- Use complete sentences. Don’t abbreviate by omitting articles or other small words in order to save space.
- Avoid jargon and use appropriate scientific language.
- Use concise syntax, correct spelling, grammar, and punctuation.

AVOID A REWRITE

- Focus on what you did, not on the work of your mentor or of the laboratory in which you did your work.
- Do NOT include acknowledgements, self promotion or external endorsements. Don’t name the research institution and/or mentor with which you were working and avoid mentioning awards or honors (including achieving a patent) in the body of the abstract.
- Be sure to emphasize the current year’s research. A continuation project should only make a brief mention of previous years’ research (no more than a sentence or two).
